

Mental Health Services Act Capital Facilities and Technological Needs Project Proposal Subject:

Approval for the expenditure of funds in the amount of \$970,968.00 as follows:

- 1) Electrical upgrade and office space remodel located at 2001 N. Garey Ave, Pomona, 91767 in the amount of \$509,208.00
- 2) Capital improvements to Therapeutic Community Garden located at 2008 N. Garey Ave., Pomona, 91767 in the amount of \$461,760.00

Summary:

Tri-City Mental Health (TCMH) intends to expend existing MHSA funds assigned to Capital Facilities and Technological Needs to make improvements for two TCHM locations. Beginning with the MHSA building located at 2001 N. Garey Avenue, improvements will focus on upgrading the electrical infrastructure and will address the current outdated electrical system. In addition, this proposal will include redesigning and re-purposing existing meeting space to accommodate new offices to support the continued growth and expansion of MHSA personnel. Current office space in the MHSA building is at maximum capacity with no available space to house the increase in staff needed to implement future MHSA programs and services.

The second renovation will take place at the undeveloped garden located adjacent to the TCMH clinic at 2008 N. Garey Avenue, Pomona. Although the Therapeutic Community Garden program located at this site, remains a popular choice for both clients and community members, the unimproved location has been a challenge for both staff and participants as they work together to implement programming without adequate accommodations for weather and ADA requirements for special needs individuals including older adults and those with physical challenges. Stakeholders previously approved funding for this renovation and this proposal will allow for the completion of the design and construction phase of this critical project.

Background:

1) Electrical upgrade and office space remodel located at 2001 N. Garey Ave, Pomona, 91767 in the amount of \$509,208.00.

Originally purchased in July 2015, this building serves as the main location for housing MHSA program staff. In addition, this building offers a large meeting space accommodating as many as

145 individuals where community meetings and staff trainings are held. However, with the continuing expansion of Agency personnel, it was determined that the meeting space could be reduced and a section re-purposed for office space to accommodate new staff. In addition, this expansion also requires an electrical panel update from 400 amps to 800 amps so that the building can safely accommodate increased staffing, appliances, emergency generator and separate air conditioning panel.

In August of 2018, Tri-City engaged the services of Tom Vitoorakorn, President of Kreative Engineering, Inc. to provide electrical engineering design service for this upgrade. The electrical upgrade plan has received approval from the City of Pomona Community Development Department Building & Safety Division. Tri-City will employ RKA Consulting Group to oversee the bidding process and construction management for this first phase of this project.

For the final phase of this project, Lee Ann Sisson of Sisson Design Group will complete the interior floor plan design and RKA Consulting Group will continue to oversee the bidding process and construction management. It is anticipated this remodel project will provide office space to accommodate between 13 and 15 additional staff.

2) Capital improvements to Therapeutic Community Garden located at 2008 N. Garey Ave., Pomona, 91767 in the amount of \$461,760.00

In June of 2016, community stakeholders and the local Mental Health Commission recommended to Tri-City's Governing Board, who in turn approved, the transfer of \$500,000 from Community Services and Supports (CSS) to Capital Facilities and Technology Needs to enhance the Therapeutic Community Gardening (TCG) program.

This request was made to establish a permanent garden site consisting of planting beds and construction of an outdoor structure/room designed to accommodate year-round garden activities and support groups. In addition to serving individuals taking part in the Therapeutic Community Garden program, this space will be used for the benefit of clients participating in other MHSA programs including Full Service Partnerships and the Peer Mentoring program.

Tri-City has engaged the services of Lacey Withers of Withers & Sandgren, Ltd. to design a Therapeutic Community Garden and walkway on Tri-City property located at 2018 N. Garey Avenue. This garden will include concrete walkways, raised planting beds, complete ADA access, fencing, entry gate located on Garey Avenue, benches, vegetable garden beds, planting, irrigation and shade pavilion with a sink and washing station and will also include a storage shed. RKA Consulting Group will provide bidding and construction management for this project.

Although this project received approval for funding in 2016, the final plans and implementation of the garden redesign was delayed due to an easement issue with the city of Pomona. After an exhaustive process, this issue was finally resolved in 2019 and renovation can now move forward.

Stakeholder Involvement:

Tri-City stakeholders have long been aware of the continued growth of this agency and the need for additional space to accommodate staff and future programming. Beginning in the fall of 2019, Tri-City engaged community members, local providers and partners in two stakeholder meetings as well as 6 work-groups intended to assess the needs of the three cities of Claremont, Pomona and La Verne.

Stakeholders participating in this process represent the following constituencies: TAY, adults, and seniors with severe mental illness; families of children, adults, and seniors with severe mental illness; providers of services; law enforcement agencies; education; TAY; seniors; community members from the three cities; and individuals served or targeted by prevention and early intervention services.

On January 8, 2020, community stakeholders gathered to review this proposed Capital Facilities and Technological Needs project proposal. During this meeting, the MHSA Projects Manager presented a comprehensive overview of each project, including the design and estimated costs for each component. However, upon further investigation, it was determined that the cost for labor at prevailing rates required an increase in the estimated cost for the power upgrade and office remodel. This increase is reflected in this revised proposal.

30-Day Public Notification:

This plan was posted on Tri-City's website and social media outlets on January 31, 2020 through February 29, 2020 for a 30-day public comment period. Copies of this proposal were also distributed to local venues including city government locations, libraries and community centers located throughout the cities of Claremont, Pomona, and La Verne. No public comments were received.

This plan was presented to the local Mental Health Commission on March 10, 2020 who approved this plan for recommendation to the Tri-City Governing Board. The Tri-City Governing Board adopted this plan March 18, 2020.

Capital Facilities Needs Listing:

| Type of Facility | Number of Facilities Needed | County Location for Needed Facility | MHSA Programs & Services to be Provided | Target Populations to be Served | |
|---|------------------------------------|---|---|---|--|
| MHSA Administration Building | Current space owned by TCMHS | 2001 N. Garey Ave, Pomona CA 91767 | Create additional MHSA Office Space | MHSA Staff | |
| Outdoor Garden | Current space owned by TCMHS | 2008 N. Garey Ave, Pomona CA 91767 | Mindfulness and horticulture groups, workshops, social support, planting, | TCMHS Clients and Community Members | |
| Capital Facilities Proposal Budget: Project Component | | | Projected Funding | | |
| Electrical Upgrade/Office Space | | | \$509,208.00 * | | |
| Therapeutic Community Garden Renovation | | | \$461,760.00 | | |
| Total Funding To Be Expended | | | \$970,968.00 ** | | |

^{*} This revised estimate includes labor for this project at prevailing rates.
