AN AWARD OF RECOGNITION PRESENTED TO OUTGOING GOVERNING BOARD VICE-CHAIR DR. EDINA MARTINEZ FOR HER LEADERSHIP AND DEDICATED SERVICE TO TRI-CITY SINCE 2008

Chair Carder announced that it was a sad and happy evening because Tri-City will recognize Dr. Edina Martinez for her nine years of service to Tri-City.

City of Pomona Mayor Tim Sandoval thanked Vice-Chair Martinez for the services she provided to the communities of the three cities and wished her the best in her future endeavors, noting that she will always be a home in Pomona. He and Board/Council Member Ontiveros then presented Dr. Martinez a Certificate of Recognition, on behalf of the City of Pomona, for her contributions during the last 9 years.

Chair Carder presented an Award on behalf of Tri-City's Governing Board for her contributions, unwavering commitment, and leadership.

Vice-Chair Martinez stated that staff's work in the community inspired her to be as involved as she has been as part of Tri-City's Governing Board; thanked everyone for their efforts, noting that Tri-City would have not made it as far if everyone had not been working as a team; and thanked everyone for acknowledging her.

At 4:55 p.m., the Governing Board recessed to celebrate, congratulate, and wish farewell to Vice-Chair Martinez.

At 4:59 p.m., the Governing Board reconvened its meeting.

NEW BUSINESS

4. REVIEW OF THE ISSUANCE OF THE AUDITED FINANCIAL STATEMENTS FOR FISCAL YEAR ENDED JUNE 30, 2017

David Showalter, of Vavrinek, Trine, Day & Co., LLP (VTD), stated that VTD is the external auditor for Tri-City and thanked the Governing Board for selecting VTD as Tri-City's auditor.

He then said that the Financial Statements being presented were for Fiscal Year ended June 30, 2017 and that it includes an audit opinion which is VTD's report on the Financial Statements; that it conveys to the reader Tri-City's management responsibilities with respect to the audit; VTD's responsibilities with respect to the audit; and the results of the audit which indicate that the Financial Statements present fairly, in all material respects, the financial position of Tri-City; and that it is a clean opinion which is the best opinion which Tri-City can have for its Financial Statements. He also reported that includes a communication letter to the Board that outlines various aspects of the audit, including whether there has been any significant changes in accounting practices or policies; noting that this year was consistent with prior years regarding the accounting policies and practices; that there were no new accounting pronouncements; that this was year three of the net pension liability pronouncement and it was becoming a more consistent accounting practice. He noted however, that it is highlighted because pension liability is a very significant estimate in the Financial Statements as a result of actuarial estimates from the California Public Employees' Retirement System (CalPERS) that get pushed down to Tri-City; and that the accounting estimates of Third Party Payor Settlements, based on estimated collection and audit completed by the State, were also audited. He then explained that VTD focused on these estimates because they are very subjective and as well as the sensitive disclosure of the bankruptcy settlement because it is an ongoing matter. He continued to say that VTD: did not encounter any difficulties when performing the audit, did not have any disagreements with management, signed off on the audit on October 6, 2017; that management did not consult with other accounting agencies relating to accounting matters; that there were not any other audit findings to bring to the Board's attention; and reiterated that it was a clean or unmodified audit opinion.

Board Member Lyons inquired with respect to the CalPERS liability, how accurate were their projections and estimates. Mr. Showalter explained that are several projections that make up the total pension liability such as the expected benefits that are going to be paid out, the experience, and the investment returns; noting that CalPERS had estimated a 7.65% rate of return and it had actually been less than 1%; therefore, the difference is amortized over five years, then obtained from CalPERS members which has an immediate impact on the required contribution to bring the plan's fund level back up.

Discussion ensued about CalPERS rates and the impact on contributions.

At 5:05 p.m. Governing Board Member Rubio Gonzalez arrived at the meeting.

Board Member Vera referred to Note #7 –Bankruptcy- on Page 36 of the Financial Statements, stating that according to the plan, payments on allowed claims will terminate concurrent with the termination of Tri-City's contractual relationship with Los Angeles County of Department of Mental Health (LAC DMH), and inquired if it referred to only secured claims or all of the claims. Chief Financial Officer Acosta indicated that if Tri-City was to terminate its contract with LACDMH, any unpaid obligation remaining would cease to exist.

Board Member Vera inquired which was the management representation letter dated October 6, 2017 that was referenced in the Financial Statements. Mr. Showalter stated that there is another report issued on Pages 56 & 57, which conveys to the reader that VTD conducted the audit according to generally accepted governing auditing standards, and that this report is also a clean report.

He explained that the management representation letter is not included in the financial statements and management provides it to VTD wherein management signs attesting that the financial statements are fairly presented as well.

There being no further discussion, Board Member Vera moved, and Board Member Lyons seconded, to accept and file the final issued audited Financial Statements for Fiscal Year ended June 30, 2017. The motion was carried by the following vote: AYES: Board Members Gonzalez, Lyons, Ontiveros-Cole, and Vera; Vice-Chair Martinez; and Chair Carder. NOES: None. ABSTAIN: None. ABSENT: Board Member Cockrell.

Executive Director Navarro referred to the demographics reports and noted that they only capture information of those clients who are formally enrolled in treatment and that they do not reflect how many people Tri-City services in the PEI programs nor in the Wellness Center programming; explained that it is a public document and should not be misconstrued as actual data; and asked the Board for direction regarding providing a different report that accurately depicts the information sought. She pointed out that actual data is presented annually during the MSHA planning process and that data from the outpatient programs from the 1991 Realignment can also be included which will be accurate.
